

## **NSO Astronomy C Event - Lab Station 1**

**This Lab Station consists of:**

- 1) Question/Answer sheet**
- 2) Plastic bag containing 20 images of objects, light curves and spectra**
- 3) Glue sticks**
- 4) Transparency Protector Sheets**

**The question/answer sheet contains 5 sequences (A through E) that each contain descriptions of four of the images that are in the plastic bag. Place the images over the appropriate description. There are four images for each of the 5 sequences. After you have completed gluing the images over the corresponding descriptions, answer the question included with each of the 5 sequences. Place the sheet into one of the protector sheets and hand in to the station proctor.**
